

We have to say goodbye now, as we are needed back at the North Pole for special elf duties.

We have had so much fun visiting you. We enjoyed how you would find us every day, the look on your faces was our favourite part

We made sure you are on the top of santa's good list. Make sure you go to sleep early tonight, giving santa enough time to stop by and leave a special gift.

It won't be long and we will be visiting you again, so make sure you stay on your best behaviour
Merry Christmas
see you next time.

Love,

Your special Friends
