

I have to say goodbye now, as I am needed back at the North Pole for special elf duties.

I have had so much fun visiting you. I enjoyed how you would find me every day, the look on your faces was my favourite part

I made sure you are on the top of Santa's good list. Make sure you go to sleep early tonight, giving Santa enough time to stop by and leave a special gift.

It won't be long and I will be visiting you again, so make sure you stay on your best behaviour  
Merry Christmas  
see you next time.

Love,  
Your special Elf
