Conveyer Belt

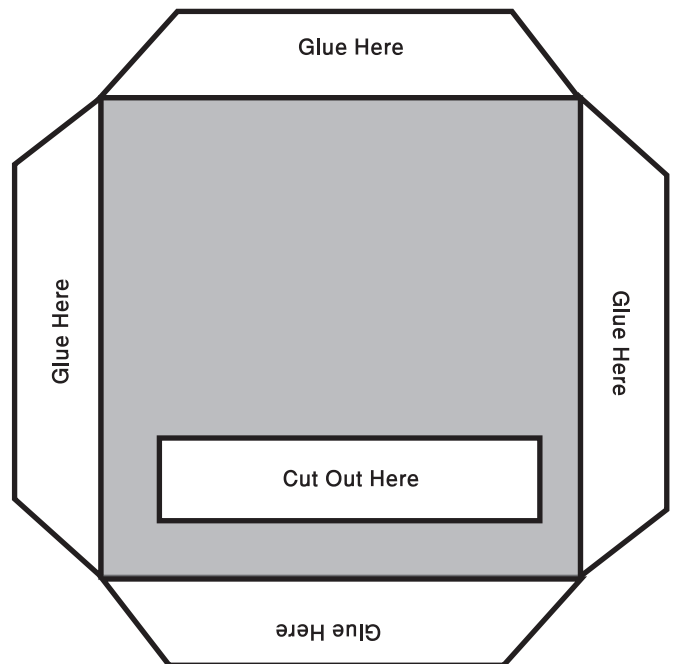

Conveyer Belt

Side Pieces

Side Pieces

1. Cut out all the pieces along the outer edges on all sheets.
2. Cut out the slits on the side pieces as marked, these are for attaching the conveyor belts.
3. Fold along all the edges of the main piece to create crisp creases.
4. Glue the main box together by attaching the tabs to form a long rectangular prism shape.
5. Prepare the conveyor belts by folding and gluing their tabs. Insert each tab into the slits on the side panels and glue them securely inside the box.
6. Glue the "Shrinking Machine" sign on top of the box.
7. Now grab your two different sized items for a fun shrinking scene
8. All set! Put on your Scientist outfit and prepare to amaze, your elf is ready for the shrinking illusion!
